"Concurrent Care for Children"
Hoping for the Best-Planning for the Worst

April 13, 2021
12:00-1:00 P.M. CT

Speakers:

Kristin James
Executive Director, Greater Illinois Pediatric Palliative Care Coalition (GIPPCC)

Jennifer Mangers
Pediatric Team Manager, JourneyCare

Ellen Byrne
Public Policy Consultant, Illinois Hospice and Palliative Care Organization (IL-HPCO)

The Affordable Care Act, Section 2302, Concurrent Care for Children, allows children to continue to receive curative-focused and life-prolonging therapies in conjunction with the specialized support of hospice care. While this is a positive step forward in obtaining better care for seriously ill children, there continues to be confusion and limited awareness of the provision among pediatric clinicians, hospice providers, and state Medicaid programs in Illinois.

This webinar will offer practical tips and case studies to illustrate how Concurrent Care and collaboration from hospital to home can improve the management of symptoms and provide support to seriously ill children and their families.

- Describe Concurrent Care for Children as defined in ACA 2302
- Review qualifying criteria and common profiles of children utilizing Concurrent Care for Children
- Identify challenges and benefits in utilizing Concurrent Care for Children
- Discuss administrative procedures for billing and reimbursement for Concurrent Care
